Registration Status: (circle one) Y = Register N = Record

Name of Calf (24 spaces max)	
-------------------------------------	--

Electronic AI certificate on file (circle if appropriate) AI certificate needed if calf was conceived artificially by a non-owned bull	Y = Yes B = Bull Owner to contact ALR
--	---------------------------------------

DNA Barcode (Parent verification by DNA testing is required for Fullblood registrations)	
---	--

Optional Weaning and Yearling Performance Data

Weaning Weight Date		Weaning Weight		Weaning Mgt Group (use 1 if all are managed identically)
----------------------------	--	-----------------------	--	--

Weaning Management Group		Yearling Weight		Yearling Mgt Group (use 1 if all are managed identically)
---------------------------------	--	------------------------	--	---

If Transferred on Entry Name of Buyer	Address
--	----------------

Buyer's Member Number (if known)		Date of Sale	
--	--	---------------------	--

I certify that this is a correct statement and I desire to have same recorded with the American Lowline Registry. In consideration of which I agree to abide and be bound by the rules and regulations of the Association.

Signature _____ Date _____

Remit with self billing worksheet and proper fees to: American Aberdeen Association (AAA)
19590 East Mainstreet, Suite 104
Parker, CO 80138

Instructions:

The first owner of the calf should apply for its registration. These instructions are intended as a helpful overview; they do not replace or supersede the Rules or Bylaws. Refer to the Rules and/or Bylaws if necessary.

Dam's Registration Number – AAA assigned registry number.

Dam's Herd ID – Suggest using the animal's individual number and year letter portion of its tattoo as the herd ID number. This is usually what a breeder puts on the tag to identify the animal. Limited to 8 characters. **Examples – 1Y or Annie**

Dam's tattoo is requested in order to confirm identity. There are duplicate registration numbers between the AAA herd book and the Australian herd book, so the tattoo and herd ID verification is necessary. If the dam is not a registered Aberdeen, indicate her breed using the codes below.

AN – Angus	DS – South Devon	RP – Red Poll
AR – Red Angus	GA – Galloway	SA – Salers
BA - Barzona	GV – Gelbvieh	SB – Brown Swiss (beef)
BD – Blonde d'Aquitaine	HH – Hereford	SG – Santa Gertrudis
BF – Beef Friesian	HO – Holstein	SH – Scotch Highland
BG – Belted Galloway	JE – Jersey	SM – Simmental
BM - Beefmaster	LM – Limousin	SP – Polled Shorthorn
BN – Brangus	LR – Lincoln Red	SS – Scotch Shorthorn (beef)
BO – Braford	MA – Maine-Anjou	SX – Sussex
BS – Brown Swiss (dairy)	MG – Murray Grey	TA – Tarentaise
BV - Braunvieh	MS – Miking Shorthorn	TL – Texas Longhorn
CA – Chianina	NM – Norwegian Red	WB – Welsh Black
CH – Charolais	PZ – Pinzgauer	XX – Cross Breeds
DR – Dexter	RB – Red Brangus	

Calf's Tattoo should be applied before the application for registration is submitted.

Tattoo should include breeder herd letters, an individual number and the year letter. Please do not report a Brucellosis Vaccination tattoo. **Example: ALR1Y**

Year letter codes are as follows: 2014 - B 2015 - C 2016 – D 2017 – E 2018 - F

Mating Type: 1 – Artificial Insemination requires an A.I. certificate if you are not the sire owner. A.I. certificates are electronic only. The sire owner contacts ALR and releases the electronic AI certificate on said bull where it is stored electronically in registering owner's inventory until said bull progeny is submitted for registration. **2 – Natural Service** requires a breeding service statement when owner of dam is not owner of bull. Natural service statement is available on the website or from the ALR Registry office. **3 – Embryo Transplant.** E.T calves require an A.I. certificate if you are not the sire owner. Also, a copy of the 'certificate of embryo recovery' should accompany E.T. registrations.

Color Codes: 1 = Black 2 = Red 3 = Gray 4 = Black w/white face 5 = Red w/white face 6 = Yellow/tan
7 = Spotted/brindle 8 = White 9 = Other color

Sire's Registration Number - AAA assigned registry number.

Sire's Name is requested in order to confirm identity. There are duplicate registration numbers between the AAA herd book and the Australian herd book, so the name verification is necessary. If the Sire is not a registered Aberdeen, indicate his breed(s) using the codes above.

Parent verification by DNA testing is required for Fullblood registrations. Additionally, all sires used to register a Lowline calf must also have a DNA type on file. Please submit a copy of the DNA test results along with the registration application to the AAA Registry Office.
