

Jack Sandford - Greenwood, TX - Southern Region

Jesus Christ is the most important part of my life. He called me into ministry as a pastor and has called me to be a rancher and a husband and father as well.

I have a bachelor's degree from Texas A&M University in Animal Science with a specialization in Beef Cattle Production along with a Certificate of Ranch Management from the TCU Ranch Management Program. I have completed courses in Bovine Artificial Insemination and Palpation from both universities as well. I am currently pursuing my master's degree in leadership and Practical Ministry from Wagner University.

I have been involved in ranching my entire life and have been raising Angus and Angus sourced cattle for a living for the last 10+ years. We currently raise registered and commercial Angus and Aberdeen Plus cattle. We are involved in the cow-calf and stocker/yearling sectors of the market, raising our own calves, weaning them heavy and grazing them on our own wheat pasture, then we will typically market them through Pure Beef or Premium Natural Beef owned by Duff Cattle Company. We are also partners with Mike Marlow at Pure Beef Genetics, LLC; a bull stud where we have been able to market moderate framed, efficient genetics from our own registered bulls as well as many others.

God has blessed my family beyond measure by choosing us to be stewards over land and livestock. I am passionate about raising and promoting cattle that function the way God designed them to. I am extremely honored and excited for the opportunity to serve and humbled to have been nominated for a possible position on the National Board of Directors.

Please don't hesitate to give me a call if I can help you out in any way.
